

Siddharth Tambar, MD is a Double Board-Certified Rheumatologist and Internist with over 15 years of experience.

Chicago Arthritis & Regenerative Medicine provides you with the highest quality care for all your arthritis and regenerative medicine needs. We focus on non-surgical management of musculoskeletal conditions. Our expertise includes caring for autoimmune arthritis conditions, degenerative arthritis, musculoskeletal injuries, and back pain.

Rheumatology Treatments

Although medication is frequently required for the treatment of autoimmune diseases, including rheumatoid arthritis, psoriatic arthritis, and ankylosing spondylitis, newer medications have dramatically improved pain relief, functional ability, and prognosis for patients with arthritis. In addition to medications, newer treatments for the management of these autoimmune diseases are available. We offer infusion therapy at our outpatient clinic that is focused on autoimmune conditions, so your specific needs are addressed as our priority.

Regenerative Medicine

Some of the cutting-edge techniques and innovative technologies we offer include:

- Platelet-rich plasma (PRP) therapy
- Platelet Lysate Therapy
- Stem Cell Therapy
- Ultrasound-guided joint injections
- Hyaluronic Acid injections

The facility offers a state-of-the-art procedure room with an on-site, RODAC compliant laboratory. Areas we can treat with PRP and Stem Cells are:

- Shoulders
- Hand & Wrist
- Hip
- Spine
- Knees
- Foot & Ankle

We also provide comprehensive consultations to help diagnose your condition and develop a personalized treatment plan that is tailored to your individual needs.

At Chicago Arthritis & Regenerative Medicine, we are committed to providing our patients with the highest standard of care. If you have any questions or would like to schedule an appointment, please contact us at 773.348.7171 or use our online form <https://chicagoarthritis.com/contact/>

We look forward to seeing you soon!
